#### By: Deondre LeClair

Catholic schools week always starts on the last Sunday in January and runs all week. This year it ran January 27 - February 2. The theme for Catholic Schools Week 2020 was Learn. Serve. Lead. Succeed. There were different days of dress up. On Monday we had Mix-It up day where we could wear plaid or striped outfit clothing. Tuesday was a Uniform day because of the special mass with Father Greg. Wednesday was where we dressed up as our favorite teacher. Thursday was were dressed the exact same as another person also known as Twin Day. Friday was a spirit wear day to celebrate the cheer and pom squad for making it to state and also had a pancake breakfast the same day.

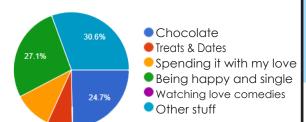

We are celebrating black history month by honoring someone everyday until the end of February. We also had the taste of St Cats for Monday and Tuesday where tickets were sold for pizza, burgers, tacos, donuts; the prices were \$1.00 for the donuts and tacos,\$1.50 for a pizza slice, and \$2.00 for a burger. We would get the food on Thursday, but we would to have our tickets in order to get the food. The penny war is where the students would bring in change like pennies, nickels, dimes, and quarters to help their grade win, but you could bring in cash to sabotage the other grades. The results were in and third place went to seventh grade, second place went to the sophomores, and first place went to the iuniors.

The stuff the bus drive went on all week where each first hour class was assigned a specific item to bring in to help their class to get a prize. The prizes were the first hour that got fifth would get a day to have the candy cart, fourth would have two days, third would have three days, second would get a spirit wear day, and first would get a dress down day. All the events happened this week made me realize that the school is a community and we are all alike in someway.

## BOOK REVIEW

BY: ABBIE DETERMAN

**Pumpkinheads** By: Rainbow Rowell

Rating: 4.5 out of 5 stars Reading level: Young Adult/Teen

For the sake of Valentine's Day, this is a romance graphic novel. Meet Josiah and Deja, both seniors in high school. They both work at pumpkin farm, and it's their last day of working on the farm for Halloween. There is just one minor problem, Josiah has a crush on the "fudge girl" Marcy. And Deja, being the third wheel, is helping Josiah to bring her the romantic adventure of his life! But in the end, Josiah is learning that this Marcy girl is not the one for him.... He finds out that maybe, the right person was with him the whole time during his romantic adventure.

I blink away tears and start the car. Unfortunately when he died the world didn't stop, and I was late for work. I wove through the LA traffic, hoping that I wouldn't be fired. I had turned off my radio, trying to concentrate while weaving through traffic, which is why when the voice came it surprised me.

"In twelve hours the server will be shutting down. Thank you for playing Human," I remember seeing messages like that occasionally when my brother played video games, but they never directly addressed us.

When I eventually got to my job everyone was acting like it was just a normal day. When I asked my coworkers if they had heard the same voice that I had, they just looked at me like I was crazy. I then realized that I was the only one that heard the voice the only thought that I had about it was maybe this is what happened when people died, which would mean that I was going to die in two hours. I would finally get to see him again.

d mean that I was going to die in two hours. I would finally get to see him a Despite the knowledge I went about my day like I typically would, serving coffee and pastries. Waiting to see him again. I would have died a million times just to se smiling and happy again

In his last days he was in so much pain that it was like he was barely there. He couldn't remember anyone, and when he looked at us it was like he looked right through us. At times he would even throw fits like a child and those usually ended in him yelling at us to leave.

Other times he would just curl uap on the bed and stare blankly at the wall, not saying a word. Even though it hurt me, I know that in the end him dying is what was best for everyone.

Eventually the twelve hours were up, and my room was lift up with a bright white light. I turned to the light and walked towards it with a smile. Before I could fully enter the white light, I heard the same voice that I had heard earlier. This time it said "You have not scored enough points to continue to the next level." As that was being said the light faded into a grey.

"Please continue into the light" As soon as that was said I had a feeling tugging me towards.

"Please continue into the light." As soon as that was said I had a feeling tugging me towards the light."

When I finally got to the other side of the fog everything was grey and dismal. I looked around and I noticed that I was the only one here that I could see. I called out, hoping for a response, but didn't get one. I was truly alone.

It was hard to keep track of the time, wherever I was, but I knew a lot of it had passed. I had wandered everywhere that I could, but I didn't find anyone else, I also discovered that there were what seemed like invisible walls, keeping me trapped.

I had bumped into the walls multiple times, but nothing had never happened before. Except for this time. This time I was seeing the world that I used to live in, but not through my own eyes. I slowly realized that I could affect their actions.

Eventually, I became a guardian angel, helping people to do good, because no one deserves to live the life I am forced to live. I learned to become happy and satisfied with my half life guiding people, but I felt like something was missing. I had guided quite a few people into a better afterlife than mine, but I was still so lonely.

Finally after a long time of loneliness and waiting I heard a voice. It was the voice that started it all "enough points have been achieved, please proceed." Once again the white light appeared, but unlike last time I was able to walk through it.

After I got to to other side I looked around, but as soon as I saw him he was the only thing on my mind. I ran to him and hugged him. Crying from the happiness of seeing him alive and well again. Happy to see him alive as he was before. "Dad" I whispered, treating him declety, hoping he wouldn't disappear, hoping that this was real. The Shield 2/14/20 Issue **4** 

"It's all right Cassie, welcome home."

## WINTER RECAP

#### LETTERING USING PLAIN MARKERS

I used this lesson in seventh grade Religion class last semester to jazz up our prayer or song reflections. It was good practice for any projects we can add some stylized, handwritten fonts to

On Christmas break, I made a couple healthy, allergy-friendly versions of Reese's Peanut Butter Cups. I didn't fully follow the recipe (STILL!) but they at least looked a lot like the real thing. One other version frustrated me but they turned out delicious in the end. In a food processor you mix 5 PITTED dates (that's where I messed up the first time), $\frac{1}{2}$  cup peanut butter and 2tablespoons gluten-free oats. Once mixed, this can be scooped and formed into balls. I froze them and made my same homemade chocolate recipe to dip them in once they were cold enough. I will definitely try these again since they were so healthy AND tasty.

#### CREATIVE SHOELACE DESIGNS

To start the semester in a fun way, I challenged my eighth grade students to find a shoelace design from the video I showed from my pinterest account (see below) or another tutorial and try out the designs on their shoes. The winning groups in each class received custom shoelaces in the color of their choice. Here are pictures of some of their shoes with the new laces...

#### INCREDIBLE DIY OPTICAL ILLUSIONS

These optical illusions are a few samples from the three classes of eighth graders I tried this lesson with. I had each class choose a different optical illusion, and students were allowed to use any colored marker instead of having them all black and white. The students even customized their drawings to make them more unique.

WATERCOLOR STAINED GLASS HEARTS This project would be fun to do with my students right before Valentine's Day to give to their

parents. I want Watercolor stained glass windows are stunning so this is perfect.

#### DIY SHIRT FOLDING BOARD

I've seen this tutorial for years, make one or two so helping me fold clothes but I'll just make one out of cardboard and let you it work.

#### SINGLE-PANED WINDOW ACRYLIC PAINTING

Students always need service hours, so I want a few artists to paint some windows for the Black and White Ball coming up. I painted one a few years ago and so did some students. window that can be hung on a wall.

By: Mrs. Aguila

INTERVIEWED BY: SAM WOODS

WHAT IS YOUR FAVORITE BOOK?

Meet

THE Staff

Wynter LaCount-

Niedfeldt

MY FAVORITE BOOK SERIES IS MAXIMUM RIDE.

WHAT IS YOUR FAVORITE SUBJECT? MY FAVORITE class is Art foundations. The only class I DON'T GET IN TROUBLE FOR DRAWING IN.

WHAT IS YOUR FAVORITE COLOR? ALTHOUGH | LIKE BLUE MY FAVORITE COLOR IS SEAFOAM GREEN.

WHAT KIND OF HOBBIES DO YOU HAVE? OUT OF SCHOOL SOME HOBBIES I HAVE IS DRAWING AND READING.

IF YOU COULD HAVE ANY DOG, WHAT WOULD IT BE? I WOULD GET A CARDIGAN WELSH CORGI BECAUSE IT LOOKS CUTER THAN THE PEMBROKE WELSH CORGI.

Dear Andy,

What to do if you're having a bad day?
Sincerely,
Struggling Student

#### Dear Struggling Student,

Having a bad day, isn't a fun thing to have to experience. If you're trying to relieve yourself a bad day, the best thing to do is just sit down and think of good things. Forget all the things that brought you negativity and focus on all those happy things. Another thing you can do to de stress, is just by distracting yourself with something fun. Watching a movie or playing a game, can really lift your spirits. Whatever you end up doing, just remember a bad day is just one day, there will be more good days to come.

Sincerely,

By: Margarita Reyes-Peña

#### **MATERIALS:**

- Mason jars
- spray paint
- spray adhesive
- glitter
- Adhesive stickers

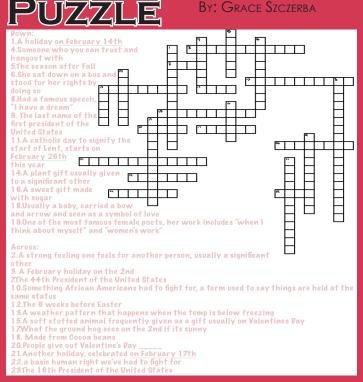

#### **DIRECTIONS:**

- Cut the adhesive sticker into a heart shape, then place it onto the mason jar
- 2. Next spray paint the jar and let dry
- 3. After paint is dry, spray the jar lightly with adhesive
- 4. Let the paint dry enough to still be tacky but not completely a liquid still
- 5. Then gently pour glitter over the jar
- 6. Tap the jar gently to remove extra glitter
- 7. Remove the sticker and you are complete!

ANSWERS

# SPECIAL FEATURE VAPING

#### WE LEARNED A LOT OF STARTLING THINGS.

WILL IT MAKE A DIFFERENCE THOUGH?
MICHELLE SAID SHE GIVES THIS PRESENTATION
EVERY DAY, TO WHOLE SCHOOLS AND HEALTH
CLASSES AND EVEN TO THE COMMUNITY AT
NIGHT. HOWEVER, SHE SAID SHE COULD

By: Mrs. Aguila

NEVER HAVE THE IMPACT THAT STUDENTS COULD IF THEY SPREAD THE WORD. SHE EVEN MENTIONED HER SON'S FRIEND; HE HEARD THE SAME PRESENTATION WE HEARD AND CHOSE NOT TO LISTEN.

MICHELLE WOKE UP TO HEAR THE NEWS OF HIS PASSING FROM EVALI (THE NAME GIVEN BY THE CENTERS FOR DISEASE CONTROL AND PREVENTION (CDC) TO THE DANGEROUS, NEWLY IDENTIFIED LUNG DISEASE LINKED TO VAPING.) THE NAME EVALI IS AN ACRONYM THAT STANDS FOR E-CIGARETTE OR VAPING PRODUCT USE-ASSOCIATED LUNG INJURY.

Why is vaping so harmful? Isn't vapor just water? Vaping involves inhaling chemicals, like nicotine and arsenic, that can cause addition and serious damage to your body. Nicotine hijacks the system and floods the brain with Dopamine. The brain makes thousands of receptors to catch the Dopamine, and make your body constantly crave more of that drug. That is addiction.

These chemicals continue to hurt your body long after you have stopped vaping, which can accelerate rapidly in the EVALI cases, which have led to 60 deaths in 27 states.

Who can regulate this? May of 2021 New regulations will go into place regarding

THESE PRODUCTS THAT ARE HIGHLY UNREGULATED RIGHT NOW. People don't even know what they are getting in the PRODUCTS BECAUSE THE PACKAGING IS MISLEADING. ONE BOTTLE LISTED FOUR INGREDIENTS, BUT THEN WAS TESTED AT PARKSIDE LABORATORY AND HAD A LONG LIST OF POISONOUS INGREDIENTS, WITH MANY HAVING SECONDHAND EFFECTS ON PEOPLE WHO ARE BY YOU WHEN YOU VAPE AND INHALE THAT AIR. THESE COMPANIES LIKE JUUL MARKET TOWARDS THE "REPLACEMENTS" WHICH IS OUR MIDDLE AND HIGH SCHOOL POPULATION. I KNOW THE STUDENTS DIDN'T LIKE TO BE CALLED THIS. I HOPE THE PRESENTATION AND THIS ARTICLE CAN EDUCATE THE STUDENTS, PARENTS AND COMMUNITY FROM THE DANGERS OF VAPING. I DON'T EVER WANT TO HAVE TO SEE ONE OF MY STUDENTS IN THE SAD SITUATION OF THE EVALI PATIENTS - HOOKED UP TO MACHINES, HOPING THEIR BODY CAN BE REPAIRED FROM SOMETHING WE COULD ALL PREVENT. SPREAD THE WORD. GET SOMEONE TO LISTEN.

## WHAT FACTS DO YOU KNOW ABOUT VAPING?

Here are some of the students' responses:

- It causes cancer.
- It is easily concealable.
- They market flavors towards kids.
- There is something unsafe in the pods.
- Vaping is killing people.
- They don't know the long term effects.

# MOST INTERESTING PIECE OF INFO? Here are some of the students'

Here are some of the students' responses from being polled after the presentation:

- Products contains THC
- One JUUL is equal to 1 and a half of a pack of cigarettes
- It can kill you
- Companies aim their products toward children with their advertising.
- Don't do drugs
- Not many of the youth vape.
- Learning about the stuff they put inside
- That Juul spends millions of dollars on marketing.
- The death lung fuzz (EVALI)

# COMIC STRIP
